

J2 BRIGHT WHITE LEDS

44PNL-50W-CCT-2FT-WH
44PNL-50W-CCT-4FT-WH

Back-Lit Troffer Panel

Ultra thin, super bright
illumination from above...
or from wherever you need
to see clearly.

construction & installation

J Squared Systems Back-Lit Troffer Panel LEDs are constructed to provide consistent, powerful illumination to last through the seasons. Its aluminum sheet housing and satin coating protect from corrosion, scratching, and discoloration caused by exposure to overly dry or damp locations.

electrical & operations

The Troffer Panel LED is a universal voltage (120-277V) fixture that can withstand extreme temperatures of -20 degrees and 50 degrees Celsius. With these fixtures, you can create the perfect atmosphere with 0-10V continuous dimming.

practical applications

Brighten any indoor commercial space with J2's Back-Lit Troffer Panel LEDs, including offices, lobbies, schools, hallways, retail stores, workstations, and pretty much anywhere else you would think to put them.
