

# MagniCan

MAG-C-36

MAGNICOLOR

Full-color, programmable  
LED downlight to focus your  
customers' attention

(Imagine if there were lights this bright to  
keep folks awake at your cousin's friend's  
step-sister's wedding)

## construction & installation

The MagniCan full-color downlight is designed for commercial and architectural applications that require bright and colorful illumination. With broad and even illumination, MagniCan can light any corner of your office or shopping center with clarity and precision. Its special construction includes durable materials and an innovative cooling design, ensuring long lifespan and consistent performance even in damp environments.

## electrical & operations

MagniCan is 120v powered and operates on the DMX512 protocol. Our LED downlight is also capable of operating in extreme temperatures ranging between -20 degrees and 50 degrees Celsius.

## DMX full-scale RGB practical applications

From sidewalks over shopping plazas to office hallways and even high-end custom homes, MagniCan can easily tie into existing Magnicolor products for a seamless color show! It comes with the spectacular DMX512 programmability and ruggedness that made our Magnicolor line famous.
