

MagniSign

MAG-S-160

MAGNICOLOR

Single and double-faced LED
sign cabinet light to grab
your customers' attention
from every direction

(Imagine if your mom sent a sign this
bright when your curfew was up)

construction & installation

MagniSign is designed for single and double-faced LED signage cabinets that require bright and colorful illumination on flat or embossed surfaces in any weather condition. From top-down illumination and wall washing to accent or step lighting, MagniSign will stick to or hang on any surface you to grab your customers' attention from every direction they look.

electrical & operations

MagniSign is 12v powered and operates on the DMX512 protocol. Our LED signage cabinet fixture is also capable of operating in extreme temperatures ranging between -20 degrees and 50 degrees Celsius.

DMX full-scale RGB practical applications

From sign cabinets and channel letters to advertising screens and kiosks, MagniSign can easily tie into existing Magnicolor products for a seamless color show! It comes with the spectacular DMX512 programmability and ruggedness that is Magnicolor.
